

March 25, 1976

the citizen has \$20,000 in insurance and the judgment that the doctor got was in excess of that \$20,000 the face value of the policy does not limit the doctors recovery. He can levy on anything of value with certain exceptions that that person has. Everything is in the doctors favor. If the members who are forcing this bill say that the fund is going to be solvent, how can this hurt anything. On the other hand if the fund does not pay off then there is a way that the citizen who has been wronged can obtain satisfaction of the judgment. Is it right to let a doctor have tremendous personal assets and not have to satisfy a judgment based on a wrongful conduct that he has perpetrated. I hope that you will vote to bring this bill back. I hope that you will accept the amendment. It is not going to disrupt the bill, but what it is going to do is place some degree of responsibility on the doctor to pay off if he commits a wrong, and this fund does not pay. I would like to ask Senator Dworak a question, then I'm going to be through. Senator Dworak, do you think that it is impossible for this fund to fail? Do you think that it is impossible for a situation to arise where the fund would not have enough money to pay off a judgment?

SENATOR DWORAK: Well impossible is a strong word. I think that there would be possibilities. I think that it is within the realm of possibility.

SENATOR CHAMBERS: Now, if that occurred, if that occurred and this amendment was not adopted, how would the judgment that had been awarded to the injured patient be paid?

SENATOR DWORAK: Through a special assessment of the people within the fund.

SENATOR CHAMBERS: If that were not paid?

SENATOR DWORAK: If that were not paid, that is the end of the road for the claimant.

SENATOR CHAMBERS: Thank you.

PRESIDENT: The question is shall LB434 be returned for the specific amendment. Record the vote. Please vote. Have you all voted? Have you voted on this matter? Record.

CLERK: 8 ayes, 14 nays.

PRESIDENT: Motion fails. Next.

CLERK: Mr. President, may I read some material into the Journal?

PRESIDENT: Yes.

CLERK: Mr. President, Legislative Resolutions 191-195 will be inserted into the Journal. They all call for studies by interim committees of the Legislature. They will all be referred to the Executive Board.

Mr. President, your committee on E & R reports that we have examined and reviewed LB819 and find the same correctly enrolled.
